

MAIN SPECIFICATIONS

Model			CBT4	CBT6	CBTY4
Operator Position			Sit-down	Sit-down	Stand-up
Maximum Drawbar Pull	3-Minute Ratings	N (kg)	3,920(400)	4,410(450)	3,920(400)
Towed Weight	60-Minute Ratings	kg	4,000	6,000	4,000
A Overall Width		mm	965	965	965
B Turning Radius (Outside)		mm	1,775	1,775	1,600
C Overall Height		mm	1,285	1,285	1,185
D Overall Length	w/ Hitch	mm	2,020	2,020	1,755
	w/o Hitch	mm	1,880	1,880	1,615
Battery Voltage/Capacity (5-hour ratings)	STD	V/AH	48/210<216>	48/280<216>	48/160
	High	V/AH	48/280<305>	48/370<305>	48/250
Electric Motor	Drive	kW	2.6	4.9	2.6
Control Type			Transistor Chopper	Transistor Chopper	Transistor Chopper

NOTE : < > for Roll-out type battery The label on the side frame indicates the following things. T: towing, Y: stand-up type (without Y: sit-down type), Number: towed weight

If You Are Using Forklifts to Transport Materials...

Forklifts are widely used in various logistics situations, from material-handling to transportation. For economy and efficiency, however, forklifts are not the best choice for handling, picking or long-distance transportation of a wide variety of items in bulk or lot unit. Compact towing tractors CBT4/6 (sit-down type) and CBTY4 (stand-up type), which enable easy long-distance transportation of large quantities of materials and provide operator-friendly superior maneuverability and operability, are your powerful material-handling partners in horizontal transportation.

Drastic reduction in transportation time and cost

Comparison with forklift in time and cost of transporting items by lot unit

By towing loaded dollies linked in series, the CBT/CBTY can transport large loads at one time. A forklift must travel back and forth many times to transport the same load volume.

Superior Basic Performance

Compact yet powerful

Small but powerful drive motor. Models CBT4 and CBTY4 provide 2.6kW power, enabling easy transportation of large loads.

Maximum speed	No load		Towed load of 2 t	
	CBT4 CBTY4	13.5 km/h	9 km/h	
CBT6	No load		Towed load of 3 t	
	18 km/h	13 km/h		

Small turning radius

Compact body means small turning radius, enabling smooth travel in limited space.

Turning radius

CBT4/6	CBTY4
1,775mm	1,600mm

Operator-friendly maneuverability

Wide entry/exit and ergonomically optimal driving position

Wide step opening (420mm for CBT4/6; 515mm for CBTY4) enables operator to easily entry and exit frequently. In addition, vertically adjustable sliding seat (CBTY4) and ergonomic seat design with optimal hip-point height (CBT4/6) enhance operator comfort.

CBT4/6

CBTY4

Full-open hood for easy battery check

CBT4/6

Battery roll-out for easy battery replacement

CBTY4 (Battery Carrier OPT)

OPS (Operator Presence Sensing)

The travel power is automatically interrupted if the operator is not in the normal position.

- With Return-to-Neutral Functions, once the OPS has activated, the drive motor will not run until the operator returns the direction selection lever and the accelerator pedal/lever to its neutral position.

- Headlamp is automatically turned off if the operator leaves towing tractor without turning them off.

- Seat Switch (CBT4/6) and Floor Switch (CBTY4) with Work On Hour Meter is optionally available.

Easy to operate, even the first time

Easy-view instrument panel and easy-maneuver driving systems enable even first-time operators to operate these towing tractors with ease.

Optional Equipment

Variety of optional equipment is available to increase operation efficiency and comfort.

Tilt steering (CBT4/6 ONLY)

Steering wheel column angle is adjustable to fit the operating position.

Rear-drawbar lever type (CBT4/6 ONLY)

Dollies can be disconnected easily by seated operator.

Front bumper (CBT4/6 ONLY)

Turn signal lights
